The **Bromar Multifeder** can be used for filling grain & pellets into feeders and grain fertilizer into combines. With its twin bin design it has the ability to mix grain into feeders and change rates of mix. The trail feed system can change size of trail and rates of mix or just feed out of one bin or the other.

The Multifeder can also be used as a grouper for filling your combine or airseeder. **Call Now 02 6332 4044**
